

METROPOLITAN VETERINARY ASSOCIATES

# MANAGING LIVER DISEASE IN CATS AND DOGS

OPEN TO VETERINARIANS AND TECHNICIANS | 2 RACE CREDITS (PENDING APPROVAL)

THURSDAY  
JUNE  
**22ND**

**6PM**  
REGISTRATION  
AND DINNER

SEMINAR  
BEGINS  
**7PM**

**RADNOR VALLEY COUNTRY CLUB**  
**555 SPROUL ROAD | VILLANOVA**

This engaging lecture will cover the pathophysiology, diagnosis, and management of common chronic liver conditions affecting cats and dogs. Our discussion will include hepatic lipidosis, inflammatory diseases, copper storage disease, and more. We'll review the clinical picture of dogs and cats with liver disease, recommendations for a definitive diagnosis, interpretation of laboratory findings, and ongoing management and treatment.

**PRESENTERS:**

Leslie Kuczynski, VMD, DACVIM

Tabitha Hutton, DVM, MTR, DACVIM
